COMPETENT LEADER PROGRAM

CONTENT OVERVIEW

The Competent Leader program is a custom training workshop for company's senior managers and decision makers to enhance their management insights as well as foresights, and to identify, address, and achieve a breakthrough in a subject matter that is most challenging and crucial to the organization.

The workshop will be facilitated by keynote speaker or subject matter expert who achieved worldwide academic recognition, and with practical hands-on experience in building leadership competencies and driving business success.

KEY HIGHLIGHTS

The customized Competent Leader program builds individual and organizational leadership capacity. It could be organized along with company's top management strategic meeting, management conference or retreat. It could be viewed as a prelude to the company's internal meeting to better prepare the decision makers with the latest best practice knowledge relevant to the theme of the discussion.

The topic of the workshop is determined by the organization's specific business need. The common training subjects covered are the following:-

- Strategic planning & business review
- Blue Ocean Strategy formulation
- Alignment and action planning
- Culture change & globalization
- Defining and delivering unique customer services
- Leadership competency
- Relationship-building and teamwork
- Creativity and innovation
